## Visit 2 historic buildings, dine at Detroit Athletic Club on day trip

We are planning a one-day trip to Detroit on Tuesday, Oct. 15, and we think you'll love it. Sign up now to reserve your spot as those bus seats filled up fast on the day trip last spring.

Find all of the details (including the reservation form) on pages 6 and 7, but first, here are some basic details.

We'll leave Lake Lansing Meijer at 8:15 a.m. and return by 5:30 p.m. We'll visit two major architectural treasures in Detroit as well as have lunch at the luxurious Detroit Athletic Club, founded in 1887. Cost is \$99 for the day, which includes round-trip transportation on a comfortable motorcoach, the building tours and lunch.

# PRESIDENT'S MESSAGE

#### **Roger Baldwin**

he new academic year is always a time of anticipation and renewal for people who structure their lives around the university calendar. This remains true for university retirees as well. Fortunately, MSURA members have a lot to look forward to in 2019-20. MSU Athletic Director Bill Beekman kicks off our first membership meeting on Sept. 9. Bill will speak about the new season for MSU sports teams. This is just the first of many membership meetings we will have with interesting speakers and performers.

Following on our successful MSURA bus trip to the Kellogg Manor House and the Gilmore Auto Museum last spring, we will have a bus tour to Detroit on Oct. 15. This trip includes visits to the historic Guardian and Fisher Buildings and lunch at the Detroit Athletic Club. I hope you will be able to join us for this interesting day.

We also like to visit interesting venues on the MSU campus. On Oct. 16 we have a "Relaxing with Music" program at Abrams Planetarium followed by a campus river walk color tour. More tours will be coming later in the year, including a visit to the FRIB (Facility for Rare Isotope Beams).

Our goal for the new year is to offer interesting programs and social opportunities to enrich the retirement years of our members and to enhance our relationship with MSU. We will also strive to actively engage more MSU retirees in our community. We encourage you to join us at many of our events over the coming year, and please bring along one or more MSU retiree friends.

#### THEATRE, continued from p. 1

# Military History Study Group observed the 75th Anniversary of Normandy Invasion with speaker

On Thursday, June 6, the 75th anniversary of the Normandy invasion in World War II, MSU Professor Emeritus Dr. David P. Lusch presented a program about the geographical considerations and limitations that General Eisenhower had to work with in the planning of D-Day. Professor Lusch is a student of military history, and has studied this battlefield in person. The meeting took place in the Community Room at the Farm Lane Branch of the MSU Federal Credit Union, sponsored by the MSU Retirees Association Military History Study Group. The audience, which was counted at 127 people, occupied all the chairs available in the room, with additional attendees standing in back. We were honored to have several veterans of World War II in attendance, and veterans were present who served in every American war since World War II. Professor Lusch is retired from the Department of Geography, Environment, and Spatial Sciences at Michigan State University after 38 years of service.

StraightLine is a fiduciary that was chosen by MSU to provide professional advice and management to both employees and retirees at MSU. Our experienced advisors and dedicated research staff allows us to offer unbiased information to the MSU faithful. We present the following for your review:

### Straight to the Point

Market Update - After a bit of a hiccup, trade talks with China are once again taking place. This, coupled with global central banks taking a decidedly dovish turn, has investors feeling good about the prospects for markets. Domestic stocks in particular have built on their strong start to the year, with further gains in June and July. International markets have also done well, with double digit gains, but they lag their US counterparts. Meanwhile bonds continue to produce solid returns as the prospect for rate cuts and quantitative easing in some areas comes closer into view.

Investment Implications - It's difficult to predict short-term market movements, but we see little to be overly concerned with at this time. Much of the market swings will continue to hinge on US/China trade talks and the moves of the Fed and other central banks. Stocks and bonds have both done very well this year, something that doesn't usually happen at the same time. At some point there is a risk that either side may see a deeper correction. For now we'd stay invested and appropriately diversified and, although things look decent, be wary of taking on too much risk in any one area.

Our quarterly newsletter (StraightTalk) walks through the macro information that we are utilizing in respect to our near term strategy.

Please contact us if you are interested in receiving these newsletters or discussing our macroeconomic views.
